ABOUT US

Founded in 1999, GDS Metal has grown to become one of Turkey's leading manufacturers in the wire drawing and wire products industry by prioritizing quality, reliability, and customer satisfaction. With a modern 4,000 m² production facility located in Başakşehir, Istanbul, the company benefits from a strategically advantageous location that provides fast access to Türkiye's largest ports, main highways, and international logistics networks.

With an annual production capacity of over 25,000 tons, GDS Metal is dedicated to not only manufacturing but also delivering sustainable solutions and competitive advantages to clients across a wide range of industries.

VISION

To become a global leader in the wire drawing and wire bending industry by delivering innovative, reliable, and sustainable solutions, setting the highest standards in quality, technology, and customer satisfaction.

MISSION

To provide our customers in both domestic and international markets with black, bright, galvanized, and CNC-bent wire products at the highest quality standards, with competitive prices and on-time delivery.

We are committed to creating continuous value for our employees, partners, and customers, guided by the principles of integrity, trust, and sustainability.

Our products are carefully examined by experts and manufactured with high quality.

Sectors

- Bathroom Accessories
- Double Hanger Wire
- Small Single Hangers
- Framing & Agriculture
- Food Service
- Cable Tray
- Industrial Cleaning Products / Bucket Hangers
- Wire Grills Inside the Oven / Top Oven Flat Wire
- Construction Industry / Prop Reinforcement Stand
- Construction Industry / Fastener Products
- Automotive Subindustry / Wire Products
- Wire of Luggages
- Advertising Stands / Display Racks / Baskets
- Cooktop Wire Grills
- Concept Furniture Accessories
- Sports Equipment
- Health Sector Accessories

OUR PRODUCTS

ELECTROGALVANIZED STEEL WIRE

Electro-galvanized coating for high corrosion resistance, clean and shiny finish

3.00-10.00 mm diameters

BRIGHT DRAWN STEEL WIRE

Smooth and bright surface, precise diameter tolerance, suitable for surface treatments

COLD DRAWN STEEL WIRE

Even surface quality, high dimensional accuracy, excellent adhesion for paints

COPPER COATED STEEL WIRE (HIGH AND LOW CARBON)

High electrical conductivity,
strong welding performance,
corrosion-resistant

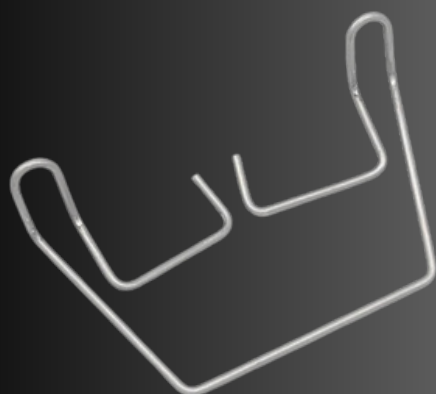

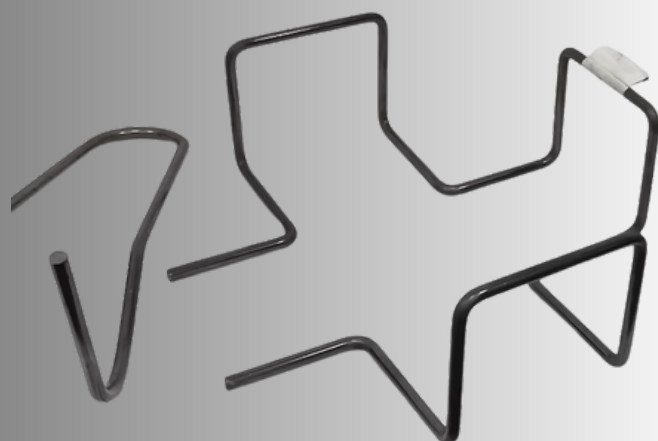

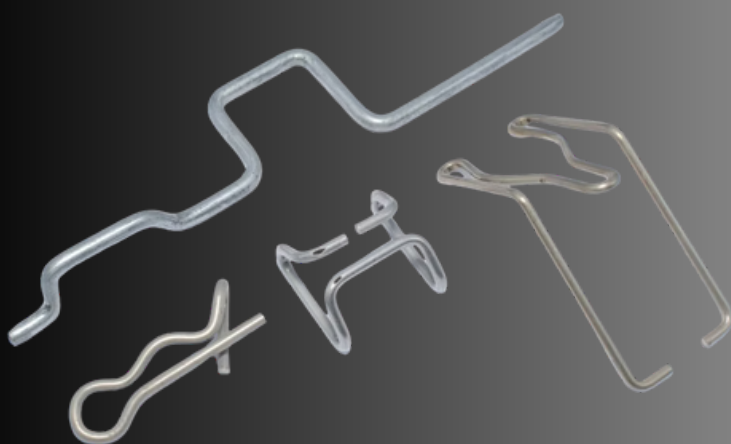

STRAIGHTENED BRIGHT CUT TO LENGTH STEEL WIRE IN BARS

Bright surface, high precision
straightening and cutting

POLISHED, GRINDED AND SANDED WIRE AND
TRUE BARS / FOR CHROMING QUALITY

High electrical conductivity,
strong welding performance,
corrosion-resistant

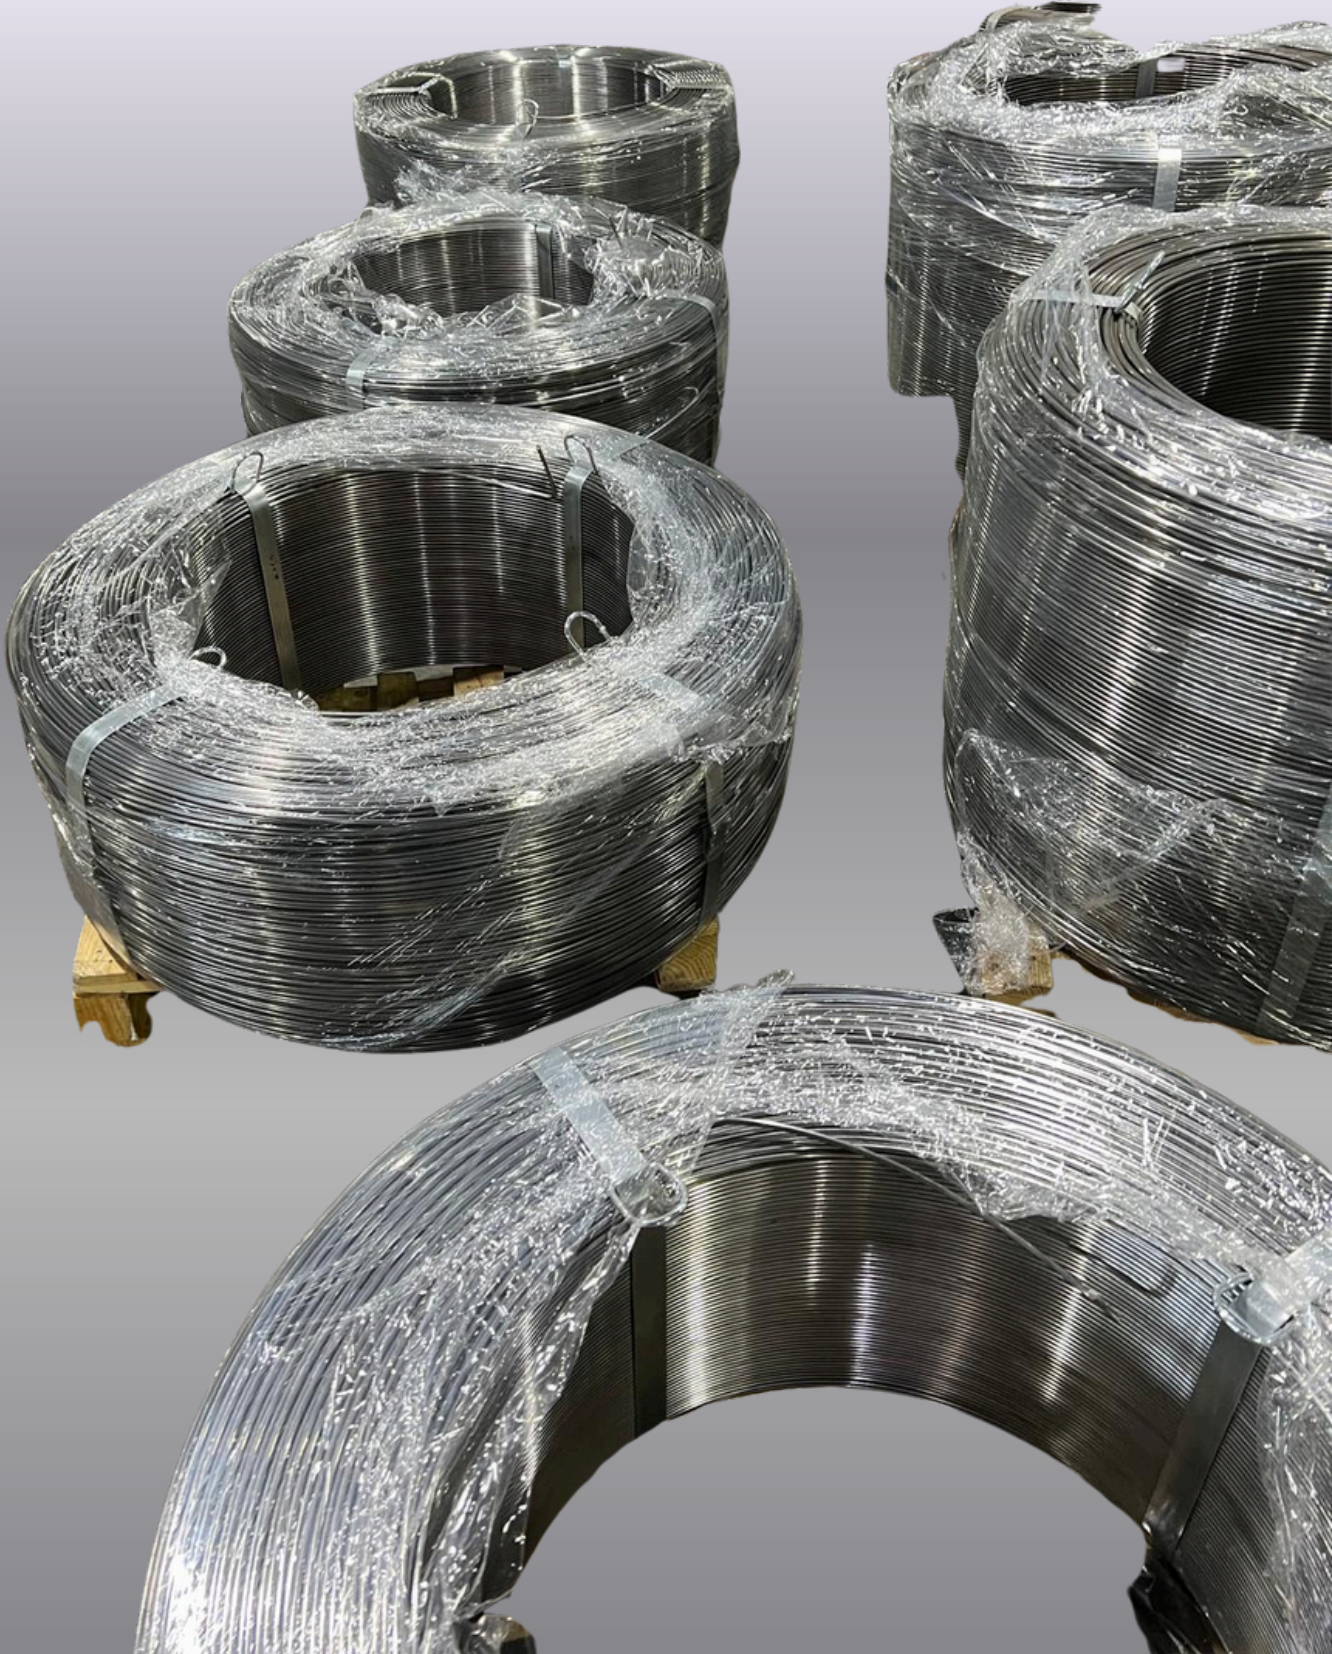

2D & 3D BENDED AND CNC BENT STEEL WIRES

High precision CNC technology, 2D & 3D
shaping capability, complex designs
possible

Product Portfolio

Product	Features	Applications
Bright Drawn Steel Wire / For Chrome Plating Quality	Smooth and bright surface, precise diameter tolerance, suitable for surface treatments	Chrome-plated accessories, decorative metal products, furniture hardware
Cold Drawn Steel Wire / For Painting Quality	Even surface quality, high dimensional accuracy, excellent adhesion for paints	Automotive and furniture parts, painted metal accessories
Electrogalvanized Steel Wire (High and Low Carbon)	Electro-galvanized coating for high corrosion resistance, clean and shiny finish	White goods, construction, agricultural equipment, cable industry
Copper Coated Steel Wire (High and Low Carbon)	High electrical conductivity, strong welding performance, corrosion-resistant	Welding wire, automotive components, electrical applications
Various Packing Bright Tie Wires	Flexible, durable, bright surface	Industrial packaging, logistics, agriculture, construction binding
Cold Balling Wire	High tensile strength, excellent drawability, cold drawn	Production of nails, bolts, nuts, screws and fasteners
Straightened Bright Cut to Length Steel Wire in Bars	Bright surface, high precision straightening and cutting	Furniture industry, display racks, decorative products
Polished, Grinded and Sanded Wire and True Bars	Polished and ground surface, suitable for plating processes	Chrome-plated furniture parts, decorative hardware, bathroom accessories
Welded Wire Assemblies	Strong welded joints, customized dimensions and shapes	Furniture assemblies, shelving systems, industrial mounting parts
2D & 3D Bended and CNC Bent Steel Wires	High precision CNC technology, 2D & 3D shaping capability, complex designs possible	Furniture components, automotive parts, decorative metal products, home & office accessories

Very Bright and High Quality Wires

Phosphated Steel Wire
1.70-12.00 mm diameters

Super Bright Steel Wire
1.70-12.00 mm diameters

From Our Production Facility

FOR DETAILED PRODUCT INFORMATION, TECHNICAL DRAWINGS, CUSTOM REQUESTS, AND PRICING

PLEASE FEEL FREE TO CONTACT US.

OUR TEAM IS ALWAYS READY TO PROVIDE YOU WITH THE MOST SUITABLE SOLUTIONS.
